

# SERVICE VEHICLES GET **VERY, VERY HOT!** YOUR ANT GEL SHOULD STAY A GEL — EVEN IF LEFT FOR HOURS IN A HOT SERVICE VEHICLE!

**We've tested Green Way Ant Bait® Gel for over 3 hours at 150°F.**

## Now you can have a gel bait that is...

- Attractive to sweet & protein feeding ants
- Fast and effective
- And, it stays where you put it — even after sitting in a hot truck for hours!

*Use bait alone for small infestations, or in conjunction with non-repellent residual sprays to enhance their performance, attracting more ants to freshly treated surfaces.*

NO Mess, NO  

**Green Way Ant Bait® Gel**

Comes in a syringe with a plunger.  
Use with **ANT CAFÉ REFILLABLE BAIT STATIONS** to keep bait fresh longer!

**Innovative Pest Control Products**
